

PARIZZI SCREEN RETRACTABLE ROOF SYSTEM

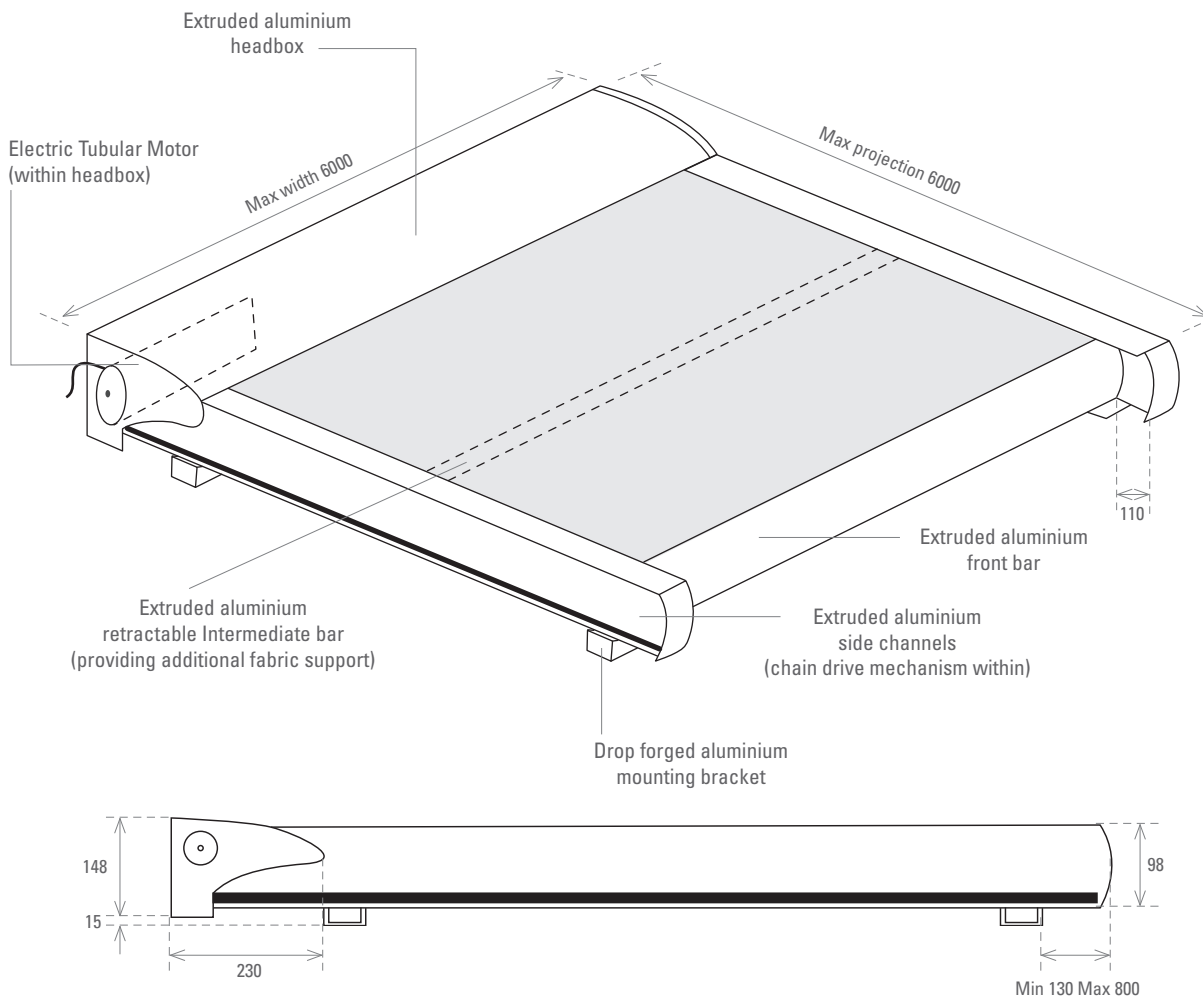

Virtually the only way to reach perfection is to consistently improve a product or technology which is very good already. This is precisely what we have delivered with the Parizzi Screen. The system utilises the latest in German technology to provide the ultimate in automated sun control for pergolas, fixed awnings and conservatories.

- ▶ Patented stainless steel chain-drive mechanism ensures maximum widths and projections are easily achieved without compromising screen tension or performance during operation.
- ▶ Exclusive to the Parizzi Screen Retractable Roof System is a fully retractable intermediate bar that intelligently provides support to fabric when being used in higher wind speeds.
- ▶ All parts are manufactured from non-corrosive materials and applied with long lasting finishes, ensuring the Parizzi Screen Retractable Roof System will last in even the harshest conditions.
- ▶ Designed, engineered and manufactured in Germany. Certified ISO 9001: Safety tested by German TUV (Product Service).  MADE IN GERMANY
